

Comunicado ALA en solidaridad con University of Cape Town (UTC)

It is with great sorrow that we receive the news of the fire at the University of Cape Town (UTC), in many of its faculties and in the library sector, which houses one of the most significant Africanist library collections.

From the Latin American Anthropology Association - ALA we express our solidarity with colleagues, students and workers of UCT. We deeply regret the loss that the fire causes, both in stories, memories and institutional projects as well as in personal and collective ones.

Receive our fraternal greetings.
ALA Board 2020-2023
